

CHEVERUS

January 7, 2021

Dear Cheverus Community,

Today we learned that a fifth member of our community has tested positive for COVID-19. The person who has tested positive has not been on campus since before the Christmas break, and therefore we will not need to do any large-scale contact-tracing. We are writing merely to inform you of this case in the spirit of transparency. As with the previous cases we have reported, we believe it is worth noting that none of the positive cases at Cheverus have been related to one another, nor do we believe that any of these cases was contracted on our campus. Once again we ask that you join us not only in your continued diligence to protect our community from exposure to this virus, but also in prayer for the individuals and families whose lives have been impacted by COVID-19. If you have any questions regarding the content of this letter, please contact me directly at moran@cheverus.org.

Peace,
John Moran
