

# CHEVERUS

May 12, 2021

Dear Cheverus Students and Parents,

Following the news this week that the FDA has approved the Pfizer COVID-19 vaccination for 12-15 year olds, we are pleased to announce that we have partnered with Northern Lights Mercy Hospital to provide a free COVID-19 vaccination clinic at Cheverus on Wednesday, May 26 and Wednesday, June 16 (2nd shot). The clinic will take place in our gymnasium from 10:00am-1:00pm both days and is open to all Cheverus students regardless of age.

Please fill out this simple Google Form if you are interested in having your child participate in this clinic; we will email you the registration details once they become available.

As I wrote in our Sunday newsletter, it is too early to determine if Cheverus will require COVID-19 vaccinations next year. We are offering this vaccination clinic as a convenience for our students and families. Besides the obvious health benefit of protection against the COVID-19 virus, fully vaccinated students would not be required to quarantine in situations where they are identified as close contacts.

Finally, thank you for all your efforts this past year to keep our community safe. Your family's decisions and cooperation with our regulations and protocols have allowed us to keep our doors open as much as possible, and we know you had to make sacrifices to do so.

Peace,

John Moran
