

# CHEVERUS

September 9, 2021

Dear Cheverus Students and Parents,

I'm writing to remind you that our pool testing program begins on Monday, September 13. Many thanks to the students and families who have already signed up - you will receive instructions on where and when to report for pool testing in the coming days. If you are still interested in having your Cheverus student(s) participate in this program, please sign them up by the end of the day today (Thursday, September 9).

[Click here](#) to sign your Cheverus student(s) up to participate in pool testing.

The School Access Code is: 87T42K

This school year Cheverus will be offering students, faculty and staff the opportunity to participate in COVID-19 pool testing on a weekly basis. We believe this testing will be another important piece in [Cheverus' COVID-19 protection protocols](#) to keep our community safe and in-person. Working with the Maine Department of Education and Concentric by Ginko in Massachusetts, this program is voluntary and free of charge to Cheverus students, faculty and staff. [Click here](#) to learn more about the benefits of pool testing and how it works.

Please feel free to contact me and/or Nurse Harvey if you have further questions.

Peace,

John Moran
