

CHEVERUS

September 13, 2021

Dear Cheverus Community,

As I wrote to you yesterday, two members of our community recently tested positive for COVID-19 using at-home rapid tests. Today we learned that the first of these two cases has been confirmed as positive with a PCR test; we expect to receive the results of the second case tomorrow.

We have completed our contact-tracing for this individual, and as we had hoped because of our high vaccination rate and current mask mandate only a few members of our community will be required to quarantine as close contacts. This afternoon we will notify all close contacts - both vaccinated and unvaccinated - by email unless they will be required to quarantine; in these cases a member of our contact-tracing team will reach out to each family by phone.

Please join me in praying for those individuals and families impacted by this most recent wave of COVID-19 cases. Please continue to wash your hands, wear masks in public spaces, and make safe choices about where and how you spend time outside of school. Thank you for continuing to do your part to keep Cheverus safe, healthy, and in-person.

Peace,

John Moran
